### SUMMARY

Enthusiastic Software Developer with one year of experience making the best use of **ReactJS**, **NodeJS**, **HTML5**, and **CSS3** on user-friendly side projects. Additionally, pursuing a **Master's Degree in Full Stack Web Development** to develop new skills, follow industry trends, and deliver exceptional up-to-date work to employers. I am currently looking to work alongside a team of expert developers and improve my hard-skills. In return, I would take advantage of my soft-skills in **communication**, **leadership**, **analytical thinking**, **problem-solving** and offer my utmost **commitment** to the team.

### TECHNICAL SKILLS

|                   |                                 |
